WILSON TAKES STEPS TO RULE PACKER PLANTS

Names Board to Fix Plans for Control of All Meat.

By ARTHUR SEARS HENNING.

Washington, D. C., March 31.—[Special.]—Far reaching regulations of the packing industry, stabilization of the prices of meats and meat animals, and possibly the operation of the great Chicago packing plants themselves are about to be undertaken by the government for the period of the war.

President Wilson approved today the appointment of a commission, recommended by Food Administrator Hoover, to study the problem and define the specific policy to be adopted. The members of the commission are:

Secretary of Agriculture Houston, representing the producer of meat animals.

Chairman Harris of the federal trade commission, representing "trade conditions."

Chairman Tamm of the federal trade commission, representing "economic thought."

Secretary of Labor Wilson, representing the civilian consumer.

Food Administrator Hoover, upon whom will devolve the duty of carrying out "any given policy determined upon."

Hoover Fears Shortage.
Unless government regulation be established there will be an inadequate meat supply for civilian consumers in the United States and higher prices, Mr. Hoover fears.

He would have this commission determine chiefly whether the government should stabilize meat prices as has been done in the cases of wheat and sugar, or—

The government shall take over and operate the packing plants for the period of the war, thus controlling directly the prices paid the producers of meat animals and the prices charged consumers of meat and meat products.

Hints at U. S. Operation.

"I feel that we have reached a point with regard to the whole meat industry of the country that requires a reconsideration of policy," Mr. Hoover says in a letter to the president. "The situation is one of the most complex with which the government has to deal, by virtue of the increasing influence that the government purchasing has upon prices, by the necessity of providing for increasing supplies for the allies, and the consequent reduction of civilian consumption and, with all the due protection of the producer and the civilian consumer."

"This change of policy may take the form of more definite and systematic direction of the larger packers as to the course that they are to pursue from month to month, or may even take the form of operation of the packing house establishments by the government."

Offers Three Plans.

The government, Mr. Hoover says, faces "three alternatives in the matter of the control of meat," and the policy which he regards the most worthy of serious consideration he makes thus:

"To stabilize prices based upon cost of production at a fair and stimulative price to the producer and with stabilization to eliminate speculative risks and wasteful practices and thus some gains for the consumer."

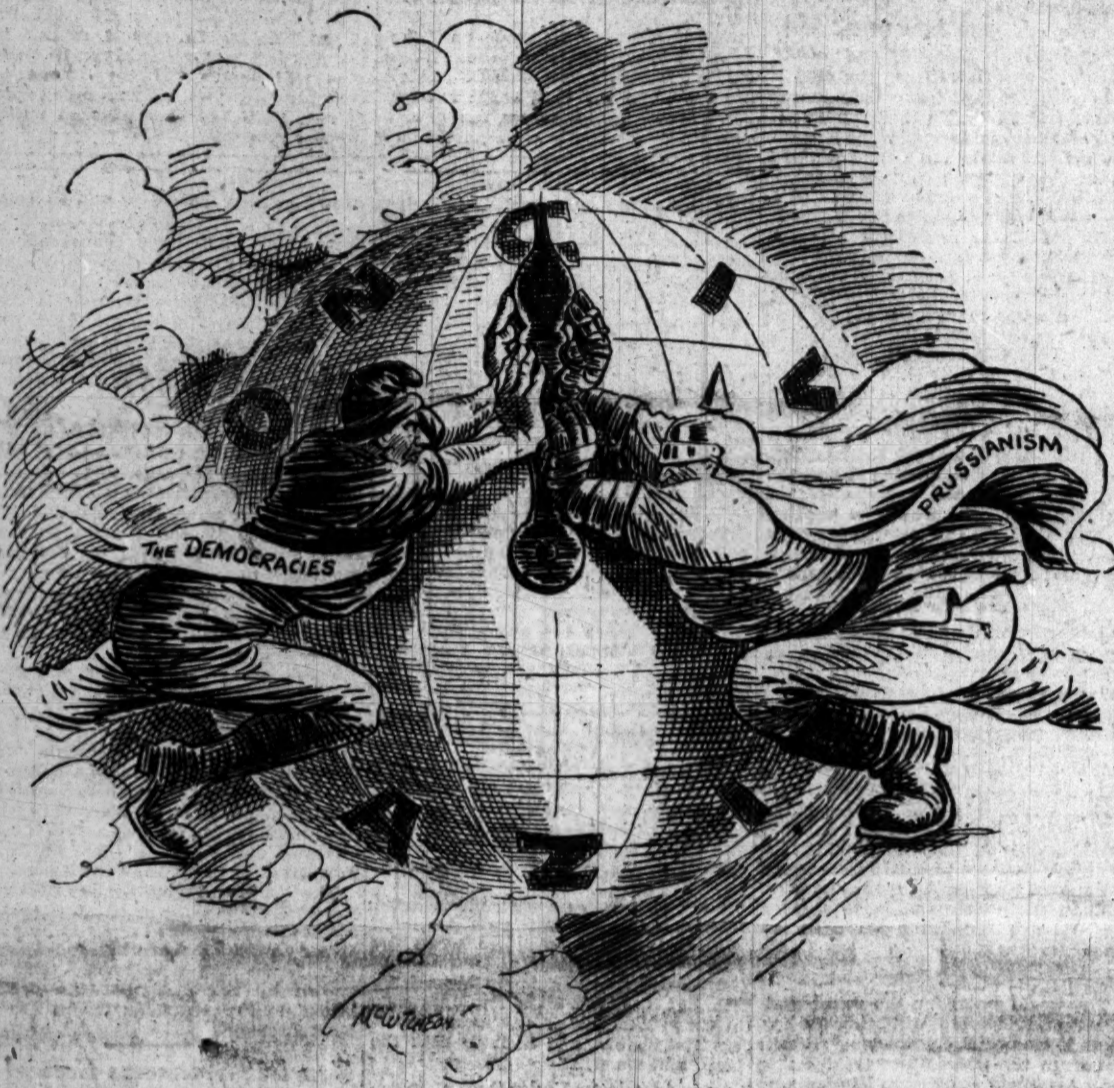

If such a policy is adopted it also follows that it will have a most important bearing on and relation to the policy of agricultural production and a long view can be taken and support in assuring the producer of fair returns.

Puts Burden on Government.

"This course is also fraught with dangers. It leads either to a voluntary agreement with the packers as to prices to be paid producers and charged to consumers from time to time, or to actual operation of the packing plants by the government. In either case the government will need

T. R.'S SON LAY IN MUD 14 HOURS AFTER WOUNDED

New York, March 31.—[Special.]—For fourteen hours after he was wounded in action with the American forces in France on March 13 Capt. Archibald Roosevelt, son of Theodore Roosevelt, lay in a muddy trench under fire, according to a letter received today by Dr. Joseph Hartwell of Portchester, N. Y., from a physician friend who is in charge of an evacuation hospital behind the American lines.

Capt. Roosevelt, the letter explained, was wounded at 5 o'clock in the morning, but until 7 o'clock that night the heavy artillery fire from the German lines made it impossible to remove him with any degree of safety.

During all this time he suffered in silence, but managed to hide his agony under a cheerful Rooseveltian smile. To those who attended him he made light of his injuries.

At the hospital it was found that his left arm had been broken and that shrapnel had entered his left knee cap, penetrating the tibia. An operation was performed immediately and the shrapnel removed. The wound being left open. He is now in excellent condition.

KING GEORGE PRAISES MORALE OF HIS ARMY

Tells of Observations on a Visit to Front.

LONDON, March 31.—King George, on returning to London from his visit to the battlefield, sent a message to Field Marshal Haig, in which he said: "Though for the moment our troops have been obliged by sheer weight of numbers to give some ground, the impression left on my mind is that no army could be in better heart, braver and more confident than that which you have the honor to command."

The king recited how he had seen the units recently withdrawn from the front and the entraining of fresh troops, "eager to reinforce their comrades."

Heard Thrilling Tales.

He said he had listened with wonder as officers and men had narrated thrilling incidents of the stubborn fighting. The king also told of a visit to a casualty clearing station where "the patient cheerfulness of the wounded was equalled only by the care and gentleness of those administering to their wants." He added:

"With these experiences, short but vivid, I feel that the whole empire will join with me in expressing gratitude to your army for the skillful and unflinching manner in which this formidable attack has been and continues to be dealt with."

Must Keep Up Man-Power.

"Any one," King George concludes, "privileged to share these experiences would feel with me pride in the British race and in that unconquerable spirit which will, please God, bring us through our present trials. We at home must insure that the man-power is maintained adequately and that our workers, men and women, will continue nobly to meet the demands for all necessities of war."

"Thus, may you be relieved from any anxiety by which the support of our faithful and brave allies and your heroic army shall justify that inspiring determination which I found permeated all ranks."

The king, on his visit, covered 350 miles in an automobile during his stay and visited numerous sections of the front. Many times he was well within the zone of shellfire.

Inspects American Section.

In the course of an inspection the king visited an American and inspected an American section, the members of which he congratulated on their fine and smart appearance, praise which was well justified, for a likelier looking set of lads never yet swore to drive the Hun out of the air.

100,000 MEN TO JOIN FOCH ON SOMME LINE

Roads Alive with Columns, Wild for Fray.

BULLETIN.

PARIS, March 31.—"The French government has decided to accede to the desire expressed by Gen. Pershing in the name of the United States," says an official note issued today dealing with the operation of American troops with the French and British.

"The American troops will fight side by side with the British and French troops, and the Star Spangled Banner will float beside the French and English flags on the plains of Picardy."

Washington reports that American effectives, ready for the field, number more than 100,000 men.

WITH AMERICAN TROOPS ON MARCH IN FRANCE, March 30.—The men are singing as they swing along. They have no idea where they are going, but they are on their way and glad of it. Up under the battle haze that hangs over the northwest the guns are rolling as they have never rolled in the memory of Mars.

For our American soldiers in France all the training period is over. For the indefinite future they are under battle orders for the battle of battles now extending from the channel to the Alps.

Battle Test Comes.

Now comes the test for which they have studied and worked. The news that Gen. Pershing had placed them at the disposal of the allies for any duties that the French and British staffs might direct has been received with cheering in our front line trenches, in our gun pits, and behind the lines in the billeting areas. The effect of the news has been electrical.

Tonight the men are cleaning their guns and equipment more industriously than ever before. Salutes seem to be snapper and obedience to the minutest orders is instantaneous. The tinge of light is running through the entire army. Although news of the great battle is scarce, line officers and men in the ranks have learned enough to know that their French and British comrades are now engaged in the greatest battle of all time, and every man back of them is keen to get into the fray.

Roads Alive with Men.

The American expeditionary headquarters hum like a hive. Motorcycle dispatch riders streak the roads. Troop movements will be indicated in no way if it is said that the roads are alive with units of men and guns, moving in all directions. There is no confusion. Everything seems to move like clock work, much to the surprise of many who have been disheartened with the allies' progress to date.

There's not a wheel in France but what is moving at high speed. Sleep, food, personal comfort are things of the past until the momentous events of the present have been brought to their irrevocable climax.

I have heard of American brigadier generals swinging along the road on foot, carrying their packs and side arms, and even at times joining in with the marching song of the "slogging" columns behind them.

Hot on the March.

At 4 o'clock this morning heavily loaded motor caissons began to rumble through the streets and over the roads. By noon the highways were crowded with caissons, both motor and horse-drawn, marching men, horses and artillery.

As yesterday, some parties were

MOVES OF WAR

LONDON REPORT

LONDON, March 31.—The latest statement issued by the war office tonight follows:

Immediately south of the Scarpe our line has been advanced to the east of Feuchy (east of Arras). It has been confirmed that the enemy's losses in his fruitless attacks were heavy.

North of the Somme the enemy did not renew his attacks today. Some heavy hostile shelling, however, has taken place at different points. We secured a few prisoners and machine guns in local fighting.

South of the Somme, by successful counter attacks, we regained possession of the village of Demuin. In brilliant operations by the Canadian cavalry and British infantry, in conjunction with the French, Moreuil and the wood to the north were captured.

A hostile attack developed in considerable force about midday south of the main Peronne-Amiens road. Fighting is continuing in and between the valleys of the Luce and the Avre.

South of Moreuil the Germans are attacking in the direction of Mailly-Raineval.

EARLIER REPORT.

The foregoing report supplements one issued earlier in the day, which was as follows:

South of the Somme our line in the Luce valley was restored yesterday, after a vigorously executed counter attack. Two strong attacks made by the enemy in the course of the day against our front from Marceleva to the Somme were repulsed in each case with heavy loss to his troops.

In his attacks delivered yesterday immediately north of the Somme, the enemy's infantry advanced to the assault in four waves and was repulsed at all points by our outpost line. The enemy's casualties on this portion of the battle front alone are estimated in the thousands.

Early yesterday afternoon a successful local operation was carried out by us in the neighborhood of Serre. Our line in this locality was advanced a short distance, and 230 prisoners and forty machine guns were captured by us.

PARIS REPORT

PARIS, March 31.—The latest report issued by the war office tonight follows:

The Germans, exhausted by their sanguinary check of yesterday, made violent local attacks today only at certain points on the front.

North of Moreuil the enemy gained no success except in the region of Hangard on Santerre, where, after stubborn fighting, he succeeded in gaining a foothold in that village.

Between Moreuil and Lassigny our troops, according to the latest information, recaptured Ayencourt and Monchel, taking about 100 prisoners and fourteen machine guns. Today, in the course of spirited engagements, they made a notable advance in the region of Orvillers.

On the Oise front enemy detachments, consisting of a battalion of storming troops, after having crossed the river near Chauny, attempted to establish a bridgehead on the left bank. In a vigorous counter attack this battalion was completely annihilated.

EARLIER STATEMENT.

The foregoing report supplements one issued in the afternoon describing the fighting of last night. It follows:

The struggle was continued with undiminished violence during the night, and the result was to emphasize the check administered to the formidable German effort of yesterday to break through the line.

Between Montdidier and Moreuil the fire of the French infantry moved down German battalions which renewed the assault without ceasing. Moreuil, captured by the Germans, was retaken by the French, again taken by the Germans, and finally carried in a bayonet charge made with incomparable bravery by French and British troops mingled in the same ranks. The woods north of Moreuil also were captured. The French took many prisoners.

Between Moreuil and Lassigny the checking of the Germans, it has been established, was complete. The French were able to make progress as far as the vicinity of Canny-sur-Matz.

BERLIN REPORT

BERLIN, March 31.—The official report from the war office tonight said:

On the heights west of the upper Ancre we repulsed a British counter attack. Between the Somme and the Oise we gained further successes in our attack.

On both sides of the Luce brook we penetrated the foremost British lines, which were strengthened by French regiments, and took by storm the villages of Aubercourt, Hangard, and Demuin, situated in the valley, and notwithstanding a most violent counter attack threw the enemy back on Moreuil.

Between Moreuil and Noyon we attacked a newly brought up French army corps. North of Montdidier we repulsed the enemy over the Avre and took by storm the heights on the western bank.

Many times repeated counter attacks by the French west of Montdidier, east of Fontaine, and against Mesnil, which had been captured, failed with sanguinary losses. Fontaine was taken by storm in the evening and Mesnil was maintained in stubborn fighting.

Troops attacking from Montdidier as far as Noyon threw the enemy back from his freshly constructed trenches beyond Assainvillers, Rollet, and Hainvillers, as well as on Thiescourt and Ville.

The Renaud fort, dominating the Oise southwest of Noyon, was taken by storm. From all other points of the front heavy sanguinary losses of the enemy are reported.

ALLIED FORCES BEAT BACK FOE ON LONG FRONT

Germans Are Foiled in Efforts Which Cost Much.

BULLETIN.

WITH THE BRITISH ARMY IN FRANCE, March 31.—[By Associated Press.]—The British are holding the whole of their long line with strength. They have smashed numerous heavy German attacks at various points and successfully taken the initiative on several sectors.

BULLETIN.

PARIS, March 31.—The battle is slackening, according to news reaching Paris late tonight. The attacks of the Germans have been less violent and less numerous today, and it has been observed that the enemy is feverishly digging himself in, particularly in the neighborhood of Lassigny.

The general impression is that the situation is most satisfactory.

(By Cable to The Chicago Tribune.) LONDON, March 31.—The great German drive has come to a halt.

At most of the points on the long line stretching from Arras south to Montdidier, thence east to Lassigny, the British and French are counter attacking with success.

A number of towns and villages have been retaken.

Stand Firm Two Days.

For two days the allies have stood firm at practically all points where the Germans are still attempting to progress.

Dense masses of Germans have been hurled back with terrific losses. The cost of their efforts may be imagined by the fact that the British official statement issued today says that in a single small sector north of the Somme the German casualties reach into the thousands.

Series of Smaller Battles.

The struggle now has become a series of battles for certain towns and positions of strategic value. They are of course closely related, but each may be considered a separate conflict.

Beginning at the north end of the British line, important success for the entente forces came today when British troops won their way to the east of Feuchy, four miles east of Arras, on the south of the Scarpe.

Take Prisoners and Guns.

A little to the south, in the neighborhood of Serre, the British advanced their lines a short distance, taking 230 prisoners and forty machine guns.

It is probable that this refers to the small "pocket" in the allied line which was held by the Germans. The pocket, it is thought, has been squeezed out.

Further down the line, in the region just north of the Somme, the enemy's infantry advanced to the assault in four waves and were

WAR CONDITIONS REFLECTED IN COSTUMES OF EASTER PARADE

Many Prominent in Society Join Annual Promenade, but Simplicity of Raiment Is Notable.

EASTER PARADE MARKED BY LACK OF USUAL FRILLS

New Modes Notable for Their Military Simplicity.

Almost gone are the feminine frills and furbelows that used to characterize the Easter parade and in their stead one saw yesterday fifty sailor hats and mannish tailcoats. Even the capes, which are so smart this season, were dark and of military simplicity. The only brilliant touches of color were furnished by the linings of the capes, which showed in dazzling flashes when the wind blew, and the corsage bouquets, without which an Easter would be incomplete.

The Liberty loan committee had asserted that new hats had absolutely no place in a fashionable woman's wardrobe this season, but there is room for doubt of this statement, for, although the majority of the hats seen on the Lake Shore drive yesterday were simple and dark in color, they were all quite new and chic. Big hats, little hats, tall hats, short hats, all were there, but rough straw saladers were most in evidence.

The Usual Promenade.

The congregations of the Fourth Presbyterian church, St. James' Episcopal church, St. Chrysostom's Episcopal church and the Holy Name cathedral all promenade up and down the drive both before and after the services. Every one was there dignified, demure, debutantes, spick and span military and naval officers, and even the little folks.

One of the couples was Philip D. Armour III. and his wife. He is a cadet in the aviation corps and was born on a brief furlough. Mrs. Armour was wearing a beige duvetyne cape and a smart little purple straw hat trimmed with stiff purple feathers. With them was Mrs. Frederick D. Countess. She was wearing a midnight blue gabardine frock and a tiny blue velvet hat shaped much like a British officer's cap.

Miss Rosalie Wacker was seen on her way to church, wearing a French gray cape and a gray mushroom shaped satin hat. Miss Gladys High had her face completely swathed in a dark blue chiffon veil which covered her hat and hung to her waist in back.

Other Costumes.

Miss Virginia Marshall wore a grass green broadcloth frock with a silver fox fur around her shoulders. Miss Elizabeth Farwell's suit was of Oxford gray cloth. Miss Isabella Holt wore a smart suit of tan with a little tan cloth hat, simply trimmed with a quill. Her sister, Marian, had on a similar navy blue serge suit. Little Marguerite Watson, daughter of Mr. and Mrs. Hathaway Watson, looked very Frenchy in a coat of rose color broadcloth and an Allice blue bonnet. Mrs. Charles L. Strobel wore dark blue serge and Mrs. William O. Goodman also had on a suit of blue serge. With her were her husband, Lieut. Kenneth Sawyer Goodman, and his little girl, Margary. Mrs. James W. Morrison wore a cape of wistaria duvetyne. Mrs. Francis S. Rickards was in a blue suit, and her mother-in-law was all in black.

two on each alternate day. The tubes of the guns, which are rifle guns, are more than sixty feet long.

The installation and adjustment of the guns must require at least three months. Doubtless they are concealed under mountains of cement.

German Explains "Miracle."
GENEVA, Switzerland, Saturday, March 30.—Lieut. Gen. von Rohne, a German authority on ordnance and inspector of artillery, gives in a magazine, of which he is editor, additional details in regard to the long distance German guns with which Paris is being bombarded. He says they are 20 meters (65½ feet) long.

The empty shell weighs 150 kilograms (330 pounds) and the charge weighs the same. The projectile attains a height of 30 kilometers (18½ miles) and descends from the sky like a meteor on its target.

It appears the Germans are extremely proud of the bombardment of Paris.

PARIS AGAIN IN LONG RANGE FIRE; Foe Proud of Gun

German Says New Shell Weighs 350 Pounds; Goes 18 Miles High.

PARIS, March 31.—The bombardment of Paris by long range German guns was resumed at 2:15 p. m. today.

At the services this morning the churches were even more crowded than usual on Easter Sunday.

An official note issued tonight says: "The German long range cannon continued during the day to bombard the Paris district. One person was killed and one injured."

No unexploded shell from a gun bombarding Paris has thus far been found. However, there have been examined in the municipal laboratory fragments of sufficient size to permit the directors to reach certain conclusions. They are of the opinion that a double fuse is used, and that the guns fire 210 millimeters (8½ inch) shells.

Possibly Four Guns Used.
Apparently four guns are being used.

ALLIES STRIVE TO PUSH BATTLE TO A DECISION

U. S. Expert Declares Counter Drive May Settle War.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., March 31.—[Special.]—High officials and military men read with great satisfaction the latest reports from the French fighting front today. These reports indicated the French are holding firmly on the entire line against which the German crown prince's forces are hurling every ounce of their strength, and that both the French and British made important gains within the last twenty-four hours.

The reports published this morning, in which British and French officials conceded the loss of six towns to the enemy, were offset by the later developments and gave substance to the feeling of optimism in official and military quarters.

"Allied Line Tightening."
Moreau, which changed hands several times and finally was taken by the French at the point of the bayonet and held by them, in the opinion of American army officers, furnishes a striking illustration of the desperate character of the fighting along the entire thirty-eight mile line which the French forces are now holding in the greatest of all battles.

Of equal importance, according to this view, was the restoration by the British of their lines south of the Somme river.

"There are no indications as yet that the force of the German blow has spent itself," a military expert of high rank said. "The tightening up of the allied line, on the other hand, is most encouraging."

Issues Still Unforeseen.
"In this connection it may be regarded as significant that the British and French are in agreement with Gen. Ludendorff, credited with being the brains of the German army, that the issues of the great struggle cannot yet be foreseen."

"Apparently both sides are determined to keep up the fight indefinitely on this front. Lloyd George, the British premier, has stated several times that the battle on this front will be prolonged. This may be construed in two ways."

First, the British premier does not anticipate that it will be possible to compel a general and speedy retirement by the enemy. Second, if the allies are able to force the gradual retreat of the enemy over the newly invaded terrain they propose to maintain an increasing pressure upon the enemy and keep right on pushing in the hope of forcing a decision.

German West Decision.
"The ferocity with which the Germans have been fighting from the outset and the utter recklessness with which they have sacrificed their men leaves no room for doubt that they started out to force a decision in the pending battle. This conviction is strengthened by the fact that the German crown prince is in command of the forces which have penetrated far into allied territory on the French end of the line."

"Obviously the Kaiser sought a decision on this great battle field, and desired that the crown prince should be at the head of his armies, if successful."

"My own notion is that the Germans have not staked their all on this engagement, however. Frankly, I did not believe they could penetrate anything like as far into allied territory."

Cross and Stars and Stripes Side by Side in City Churches

While the churches are preparing to make next Sunday prominently a war Sunday, the ever present reality of America's entrance into the world struggle one year ago made itself felt at the Easter services yesterday.

The Christian hope inspired by the resurrection theme inspired many preachers to sound the note of optimism, while recognizing the seriousness of the great battle now being waged at the front.

At the Warren Avenue Congregational church the Rev. J. A. Jenkins, pastor, an illuminated service flag of sixty-five stars was embedded in flowers, bringing together the emblems of the resurrection of democracy from the death of absolutism and the resurrection expressed by the Christian faith.

At the Immanuel Baptist church, Twenty-third street and Michigan avenue, the Rev. Johnston Myers, pastor, a United States flag surmounted a cross of white lilies, and the pastor preached on the similarity in the message of the flag and the cross.

The service at the Fourth Presbyterian church were begun with the singing of "The Star Spangled Banner" and closed with "America."

Pontifical high mass at the Holy Name cathedral, Superior and North State streets, was attended by a great throng. Archbishop G. W. Mundelein officiated. The musical program was under the direction of Hans Merx, musical director of the archdiocese.

Siloam commandery, Knights Templar, attended the Frances E. Willard Memorial Methodist Episcopal church, Oak Park, where the pastor, the Rev. Arthur F. Wesley, called the war on the part of the United States a new crusade.

In his sermon at the Protestant Episcopal Cathedral of Saints Peter and Paul, Bishop Charles P. Anderson said in Russia 3,000,000 men had been put under the sod, not by the enemy, but by the treachery of their own brethren.

Four silk flags of the allies were dedicated at each of two Protestant Episcopal churches—the St. James and St. Chrysostom churches. The flags at St. Chrysostom's were presented by Mrs. Joseph T. Bowen.

Elaborate musical programs were common to nearly all the churches.

fore, they decided to seize the Dutch merchant fleet in so far as it was within their power.

National Feeling Wounded.
"The Netherlands government deems it its duty, especially in serious times such as the present, to speak with complete candor. It voices the sentiments of the entire Dutch nation, which sees in the seizure an act of violence which it will oppose with all the energy of its conviction and its wounded national feeling."

"The American government has always appealed to right and justice, has always come forward as the champion of small nations. That it now cooperates in an act diametrically opposed to those principles is a proceeding which can find no counter weight in the manifestations of friendship or assurances of lenient application of the wrong committed."

U. S. WAS GENEROUS.
Washington, D. C., March 31.—In the view of the American government requisitioning of the Dutch ships in American ports was done in full accord with recognized principles of international law and most generous guarantees were given for the protection of Holland's commerce and the rights of the ship owners.

Protect naturally was expected from Holland, but officials frankly were surprised tonight at the tone of the official communication and were at a loss to explain it.

March 31.—The announcement that the seizure of the Dutch merchant fleet in American ports was characterized by the Dutch government in a statement in the Official Gazette as "an act of violence which it will oppose with all the energy of its conviction and its wounded national feeling."

The government takes issue with the proclamation of President Wilson regarding the decision of the United States, saying it contains assertions which are contrary to the facts.

"With painful surprise the government and whole Dutch nation has taken notice of the presidential proclamation and the statement of March 28 relative to the seizure of part of the Dutch merchant fleet," the statement says.

"The seizure en bloc of a neutral merchant fleet, if only for the duration of the war, is an act indefensible from the viewpoint of international law and unfriendly towards a friendly nation, apart from considerations of legality."

Against Traditional Friendship.
"But the manner also in which the presidential statement defends this act of violence does not contribute toward lessening the sting thereof, for this defense has plainly been drawn up under the influence of a completely incorrect representation of affairs."

"The manner in which the Dutch merchant fleet has been treated in past months in the United States, the incessant difficulties placed in the way of our sailings from American ports, repeated refusals of bunkering facilities and forced unloading of cargoes already bought—all this may be within the rights of the United States."

"It surely was against the traditional friendship between the two countries, although on this point the presidential statement keeps silence."

Calls Wilson's Word Incorrect.
"According to President Wilson's proclamation, the Netherlands, owing entirely to German pressure, failed to observe the preliminary arrangement which was proposed for the purpose of leaving no longer idle the Dutch tonnage in American ports and furnishing an opportunity for making voyages within a period of ninety days, pending a definite agreement on Dutch tonnage and rationing. This is distinctly incorrect."

"It is equally as incorrect as the allegation that Germany had threatened to sink two ships which were to sail from Holland with America's approval and that Germany had made proposals to prevent both the observance of such a preliminary arrangement and the conclusion of a permanent one."

The statement then outlines Holland's protest of ships for the Belgian relief and to carry grain to the Swiss. It declares that unexplained delays in cable messages retarded these sailings.

Denies German Pressure.
The statement continues: "The fact is that a majority of the ships had been chartered under the provisional agreement through the war trade board and part were already sailing to South America, but were stopped en route by the American authorities, while in the Pacific ships plying between the western coast of the United States and the Dutch East Indies made regular voyages without any impediment, direct or indirect, by the Netherlands government. The ships now in British ports in and outside Europe and in the Portuguese port of St. Vincent were prevented from sailing by the British and Portuguese themselves."

"As shown by the foregoing, the allegation that the Netherlands, owing to German pressure, was powerless to observe the provisional agreement, is contrary to fact. That the president was incorrectly advised is proved conclusively on a point of greater importance, namely, where the statement mentions the very demand that the Dutch ships would have to enter the war zone and the seizure which followed Holland's reply."

"After the incorrect allegation that Holland was unable to observe the provisional agreement," the statement continues, "Great Britain on March 7 made Holland a final proposal, whereupon Holland came forward with a counter proposal which was unacceptable."

The statement then discusses the Dutch pleas for 400,000 tons of wheat in return for the ships and the progress of the negotiations.

London Engagement Broken.
The statement says further: "Suddenly the aforesaid London engagement was broken on March 7, when the cardinal point, that ships given in exchange for the advance of 100,000 tons of grain—ships with tonnage amounting to about half a million—were not to be used in the danger zone, was revoked."

"The onerous character of this change lay not in the fact that the Dutch ships were to be sent into the danger zone for this has nothing to do with neutrality—but because it was evident that to enter that zone, situated as it is, around the associated countries in Europe, would amount to a large extent to the transportation of troops and war materials from America to the European co-belligerents."

"The True Facts."

"In the light of the foregoing, the reasoning of the presidential statement, in accordance with which the seizure was held to be necessary, because Holland would be unable to observe the contract, cannot be sustained. It is contrary to the true facts. The only true representation in this connection is the loss of ships, but constrained to replace the tonnage by obtaining the disposal of a large number of ships which belonged, not to the Netherlands, but to the Netherlands. They became aware that the Netherlands government could not permit the ships to sail in the interest of the associated governments, except on the conditions imposed by neutrality, but which were, in the judgments of the governments, not sufficiently in accordance with their interests. You will pay approximately \$100 for a good domestic rug.

Even nominal use makes it a second-hand rug; a few months' wear makes it dingy, lifeless; soon you become tired of it. Should you wish to dispose of it, you would get a very small fraction of what you paid for it.

But when you pay even as little as \$200 for an Oriental Rug—a good Khiva Bokara, for instance—you make a life-time purchase.

Your good Khiva Bokara will never become a second-hand rug; a few months' use or even a few years' use will leave no sign of wear in your rug. Its richness and beauty—always new, ever changing, never tiring—will be a source of pleasure and pride to you. Your Oriental Rug, with very little care, will not depreciate in value.

Make your selection of a good Oriental Rug in this store where quality is guaranteed, variety is large and prices are reasonable.

JAPAN'S ACTION AGAINST RUSSIA UP TO THE ALLIES

Premier Says Mikado Is Ready to Strike; "Peril of Germany Grows."

TOKYO, Tuesday, March 26.—(By the Associated Press.)—Japan has proposed no military action in Siberia, although it is a move which should be suggested jointly to the entire allies. It would receive the most careful consideration, Foreign Minister Motono said in addressing a joint session of parliament today on the eve of its adjournment.

"The imperial government neither suggested nor proposed military action in Siberia," he declared. "Nevertheless, it regards with gravest apprehension the eastward movement of Germany. Hitherto Japan has received no joint allied proposal, but if such a proposal is received it will be considered most carefully."

"This will be especially the case if the Siberian situation becomes worse, requiring decisive steps on behalf of the interests of the allies, in which event the imperial government will not hesitate to take prompt and adequate measures in a whole-hearted manner."

Russia Not an Enemy.
"It is desired to make it clear, however, that the imperial government does not regard Russia as an enemy. Japan will not adopt an aggressive policy toward Russia, and does not intend to declare unreservedly and unconditionally the deep and warm sympathy of the nation for the Russian people."

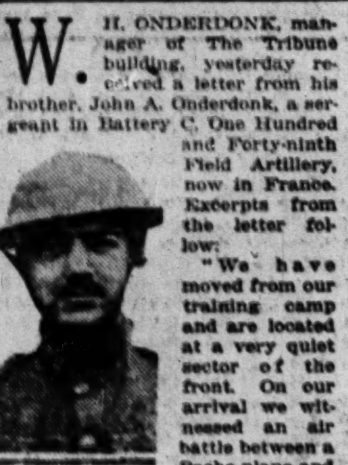

Four Prisoners Arrived.
MOSCOW, Saturday, March 30.—(By the Associated Press.)—Capt. William Webster of the American Red Cross and Capt. W. L. Hicks, a British officer, who were authorized by the Bolshevik authorities to go to Siberia to investigate reports that large numbers of German and Austrian prisoners of war were being organized and armed, telegraphed today from Irkutsk that after visiting all points along the Siberian railway from the Ural mountains to Chita, they were convinced that the rumors regarding the extent of the arming of prisoners and the consequent threat to the trans-Siberian line had been exaggerated greatly.

Troops Desist from Fighting.
At Omsk Capt. Webster and Capt. Hicks saw a trainload of Austrians and Hungarians armed with rifles and machine guns, on the way to the Manchurian border to fight the Cossacks under Gen. Semenov, who is holding out against the Soviet authority. These Austrians and Hungarians for the most part are soldiers who deserted early in the war, consequently being unable to return to their country.

Capt. Webster and Capt. Hicks met Maj. Walter Drysdale, American military attaché at Peking, who had inspected the prisoners along the Amur river and the railway from Vladivostok to Chita. He found only a small number of armed prisoners.

Chicago Boy's Impression as Boche Plane Is Fought by French Anti-Aircraft Guns.

JOHN ANDERSON, manager of The Tribune building, yesterday received a letter from his brother, John A. Anderson, a sergeant in Battery C, One Hundred and Forty-ninth Field Artillery, now in France. Excerpts from the letter follow:

"We have moved from our training camp and are located at a very quiet sector of the front. On our arrival we witnessed an air battle between a Boche plane and French anti-aircraft guns. It was our first view of real war, but it looked more like a moving picture than the reality."

"We traveled here in box cars as seasoned 'pollys' and I can vouch for the fact that it is not traveling too luxuriant, but we had a good opportunity of seeing a little of France. I certainly want to see this country after the war. It is wonderful."

"We have been billeted in a little village for awhile and we have been living on the fat of the land. The women in our cottage have been setting us butter and eggs and milk, chicken, etc."

**INCOME TAXES
MAY BE BOOSTED
TO 10 PER CENT**

Washington, D. C., March 31.—(Special.)—Within a few months congress probably will be called on to pass another bond bill for at least \$4,000,000,000 and a taxation bill of from \$2,000,000,000 to \$3,000,000,000. The size and extent of the new tax bill will depend on the returns for income and excess profits taxes, which will furnish the bulk of additional funds raised by taxation.

Congressmen who have been in conference with treasury officials believe the normal income tax rate will be made 10 or 12 per cent—with a reduction from the exemptions of \$2,000 and \$1,000 now authorized by law. Surtaxes will be increased materially on incomes between \$10,000 and \$50,000. The income tax, it is believed, can be made to yield an additional \$1,000,000,000. Increases in the excess profits taxes also can be made to yield more than \$1,000,000,000.

**Huge Distillery Sold;

Hammond, Ind., March 31.—(Special.)—The Hammond distillery, one of the largest in the Sixth internal revenue district and which paid up to the time when it was closed by the government, over \$12,000,000 annually in revenue taxes, was sold yesterday to the Norwalk Milling corporation of Buffalo, N. Y. One hundred thousand dollars will be spent in new machinery. The company will make horse, cattle, and chicken feed. The general offices will be in Hammond.

to take some financial responsibility in speculative business.

"In such situation the government would be under constant pressure from producers for enhancement of prices and from the consumer for reductions. It necessitates the constant action of a commission to determine such prices. It will mean that all the complaints of trade fall upon the government."

"The choice of alternatives is one of determination of the maximum contribution to winning the war, and the choice of the lesser economic evil between such alternatives."

Claims Seizure Power.
"The legal ability of the government to give authority to such measures has in the power to direct contracts for war necessities, to take over and operate plants, and to make voluntary agreements to carry out a definitive and constructive policy."

"When purchases are so large as to cut into civilian consumption it becomes possible to insure manufacturers a complete market, thus eliminating their risk and thereby eliminating some of the margin that they must take in the conduct of a speculative business, and it also gives sound reason for directing their policies."

The other two alternatives to which Mr. Hoover finds serious objection are:

"To free the government from all interest in price by abandoning direction of war purchases, and to abandon conservation measures, because these may also affect the price."

Would Stimulate Profiteering.
"This would be a relief to the government, but with growing volume of purchases the price influence will be transferred to uncontrolled agencies who are themselves price fixing, and carries the following dangers:

"It will stimulate profiteering and speculation."

"The cost of living, thus subjected to abnormal fluctuation, will reflect in wage discontent and instability."

Present Situation Intolerable.
"To continue as at present the direction of these large purchases with a mixture of partial national policy in production and day to day dealing with emergency."

"This is an almost intolerable situation for any government official in criticism from both producer and consumer and with the growing volume of purchases this criticism must increase. It permits of no constructive policy in production."

The allied purchases for both civilian and military purposes in cereals, as in many other commodities, Mr. Hoover explained, have been consolidated by necessity of shipping conditions and by necessity of the treasury arrangements.

JOY AT YARDS

Workers Celebrate Announcement of More Pay and Eight-Hour Basic Day.

Polyglot cheers that caused the entire stockyards district to resound with a babel of noise yesterday afternoon echoed from Davis square, Paulina and Forty-fourth streets, when 25,000 stockyards workmen gathered to celebrate the award of Judge Samuel Alschuler, granting most of the demands of the men. The meeting was presided over by W. Z. Foster, secretary of the Stockyards Labor council, who in opening read the award and explained it in minute detail.

He was followed by John Fitzpatrick, president of the Chicago Federation of Labor, who announced that the award was a great victory for labor, "greater than we appreciate at the present time."

Mr. Fitzpatrick also went over the award, item by item, and asserted that it, together with the agreements between the men and the packers, recognized the fundamental principles of organized labor. These, he said, are comprised in the enhanced wage scale, the eight hour day, extra pay for overtime and holidays, equal pay for men and women, a day's rest in every seven, and the recognition of the principle of seniority in employment, for the first time in this country, together with the method of redressing grievances agreed to, by which the men are given the right to select their representatives.

For advances to the allies until private trading has been of necessity eliminated.

Government Dominates Prices.
"It is also becoming necessary for the government to coordinate large purchases with those of our army and navy in order to prevent conflict in the execution of orders," he says. "This great consolidation of buying has to some extent, and will increasingly, dominate prices."

"We have since last September recognized that the export purchases of pork products would affect prices and after consultation with important committees of swine growers we last autumn gave a rough assurance to the swine producer of a minimum price which we felt that we could maintain from the export buying, and this has been maintained, although with considerable difficulty, and has been beneficial in stimulating production. The indications are that these purchases will now be further increased."

LOCAL PACKERS RETICENT.
G. F. Swift Jr., vice president of the Swift Packing company, said last night that he did not care to discuss the proposed action of the government until he had studied the plan in detail. His company had, however, cooperated with the government to the full extent of its ability on wartime measures, and would undoubtedly continue to do so.

Armour & Co. representatives had nothing to say pending further information as to the plans.

British Marines Help in Defense of Rail Line to Arctic.

MOSCOW, March 31.—(By the Associated Press.)—Allied cooperation with the council of soldiers' and workmen's delegates in the defense of the Kola and Mourmansk (Arctic) coast and railway is an established fact, according to dispatches which announce that French and British officers are working with Bolshevik troops as instructors, as well as supplying British marines and French soldiers returning from the Russian front.

Apparently the Mourmansk soviet originally was suspicious concerning allied offers of assistance in resisting the encroachments of Finnish White guards upon the Mourmansk district, but Leon Trotsky, president of the revolutionary military committee, authorized the soviet to accept the help of the allies' forces.

The allies are said to be prepared to supply the food and materials required by the Red army already forming to oppose the White guards, which are extending their operations in the Mourmansk district with German encouragement and help.

CITY PUTS ONE
OVER ON TIME
WITHOUT A WINKGain of Sunlight Hour Is
Effected with Trifling
Confusion.

Chicago yesterday gave the hitherto immovable sun a severe setback just before the April front and for the first time in history succeeded in putting one over on Father Time.

Old Sol was so chagrined at finding every one of his earthly dials an hour ahead of the swiftly moving world that he hid his face and wept tears by the bucketful, thereby getting himself into further disrepute with a world that had already declared him an old fraud.

Father Time wandered disconsolately about railroad stations, deriving a mead of satisfaction from the fifty Sunday trains to which certain suburbanites gave vent on finding the gate closed and their train gone a long hour before.

Sun Is Late Riser.

For the first time since man began to compute time, the sun rolled lazily out on the morning of March 31 at 6:11 o'clock after getting up for centuries on that date at the hour of 6:10. Last night, instead of going to bed at 8:14, as all good suns ought to do, it stuck around the wicked loop until 7:14.

The standard time which will prevail until next fall was flashed over the country from the naval observatory tower at Washington at noon yesterday. At that hour the master clock of the observatory stood at 11 a. m., for its mechanism is so delicate that it was not set forward. The master clock will continue to record astronomical time, but the messages from the tower will be dated an hour ahead.

Only Little Trouble.

On the whole, however, there was comparatively little confusion. The great majority of people remembered to push their clocks ahead an hour and the dawning of the new day with its new time found them prepared.

Wherever there were those who forgot, however, there were likewise found grins and tears and cuss words and whoops of glee.

At the theaters the number who arrived at the end of the first act was numerous. One devotee of the stage rushed into the Palace theater just in time to see the curtain descend on the last act. He had changed the hands of his clock, but had set them back an hour instead of ahead an hour.

Patrons of some of the "movies" were late for their meals because the owners of the theaters forgot to set their clocks ahead.

Oriental Is Late.

At the Congress hotel an audience waited an hour for Itomar Ben Avri of Palestine to deliver his lecture on "The Kaiser in Holy Land." He had become so interested reading of the doings of the kaiser in France that he had overlooked the news that America was moving up an hour.

A great deal of what confusion there was came about through the inability of the Western Union to change its clocks. The adjustment of the clocks is a manual process and the company was forced to operate them yesterday under the old schedule. There are 4,500 of these clocks in Chicago alone.

Pastor Is Obdurate.

There isn't going to be any change in time in the Church of the Immaculate Conception at Waukegan, which is presided over by the Rev. E. W. Gavin. He announced from the pulpit yesterday: "The hands of my church clock are going to stay just as they were. I've been conducting my affairs by the old time for a good many years and it suits me. My parishioners may turn their clocks up an hour if they wish, but they will have to turn them back when they come to church and school services."

Pupils of the parochial school of the Church of the Immaculate Conception will thus find themselves in the following anachronistic dilemma: It will be ten o'clock when they leave home to get to school by nine, which, of course, by the same process of reasoning will make a quarter to one when they leave school at a quarter to twelve for the noon recess at 11:45.

FIGHTERS ENJOY
'RIVIERA GIRL'
AND VICE VERSA

The skyrocket yell by jockies and soldiers who packed the Blackstone theater yesterday afternoon to see "The Riviera Girl" almost broke up the performance.

Sam Hardy, comedian, from Fishburg, Ill., was forced to make a speech after he had danced till he couldn't dance any more, and then the boys kept calling for him till the curtain went up on the final act, and Sam performed till his collar wilted and rivers flowed down his brow and cheeks.

Juliette Day, Sam's wife, also honored the audience with a pretty little speech while Sam was putting on a new suit of clothes, and the boys expressed their liking for her just as vociferously.

"It makes you wish you could do it right over again for them," said Sam, as he wiped the perspiration from his brow at the close of the performance.

Miss Willa Bennett, whose name appears on the program as the leading lady, will never know just what she missed by being laid up in bed with gripe, but Miss Louise Evans, who played Miss Bennett's part, said: "Oh, it was the most wonderful thing I ever saw, the way those boys appreciated it."

What struck me most was the way they jumped to their feet when "The Star-Spangled Banner" was played," was Carl Cantvoort's word of appreciation for the audience.

"I could work forever for nothing for a crowd like that," a stage hand remarked as he started knocking down after the show.

The war recreation board, under whose auspices the production was given, issued its thanks to the Chicago Theater Managers' association, the cast of "The Riviera Girl," the International Alliance of Theatrical Stage Employees, the Chicago Federation of Musicians, and to the attaches of the Blackstone theater, amid thunderous repetitions of the "skyrocket" for their services, which were donated for the performance.

Peggy Kelly of 2185 Orchard street and Eileen McFarlane of 2185 Orchard street are patriots. Eileen's brother, John, who expects soon to become a member of the national army, is an awfully good friend of Peggy, in fact, well, whatever happens will be after the war.

Peggy, too, has an awfully good friend who soon will be a soldier, but his name, unfortunately, must remain a secret for the time being, because Peggy is very, very modest, but also very, very pro-American.

Eileen's home stands directly at the foot of what was once Hamburg street, a name which was an offense to the eye and ear of a patriotic soldier's sweetheart.

"I'll dare you to paint that sign out," Eileen said to Peggy yesterday.

"I never take a dare," Peggy responded, with fire in her Irish eyes. And so it came about that a step ladder was commandeered and, lo! where once "Hamburg street" flaunted itself in the face of passers-by, now may be seen a perfectly legible, though trifle wobbly sign:

"We are Americans on this way," Eileen explained. "I couldn't stand it to live at the corner of Hamburg street."

"Yes, as long as we are going after the Germans, let us go after their names," Peggy added. "I work at what was once 'the German hospital.' I added my knees to the others and it is now 'the Grant hospital.'"

New Cars.

Chicago may have all the shipbuilding contracts from the government that can be handled here.

This was the word brought back from Washington last night by the special committee of the Cooperative League of Building Trades and Industries which went to the capital to talk to officials about Chicago's war work resources and possibilities.

Assurance also was received by the Chicago delegation that this city may get the lion's share of the \$2,000,000,000 that is to be expended by the government to construct new railroad cars and remodel old ones.

Plenty of Work Promised.

"We are more than pleased with our reception at Washington," Thomas Carey, president of the league and head

of the delegation, said. "We can say that Chicago is sure of getting a goodly share of the war contracts that are under consideration, and the idle men in the building trades especially are going to be given work."

As far as the shipbuilding contracts are concerned, this city can have just as many contracts for ships as capital can be found to start yards.

Florence E. Sullivan, executive secretary of the league, said that the Washington officials welcomed the data taken to the capital by the committee.

Show City's Facilities.

"We were able to show the people down there that we had the man power, the materials, and the housing facilities as well as the best transportation facilities to be found in any industrial center of the country," he said. "In nearly every manufacturing section labor, transportation matters, and the housing situation have presented grave problems."

Besides Messrs. Carey and Sullivan, the committee was composed of Charles W. Fanning, president of the Building Construction Employers' association and Simon O'Donnell, president of the Chicago Building Trades council.

Mr. O'Donnell told the federal officials of the labor situation here and particularly of the no strike agreement for the period of the war which has been signed by twenty-seven allied building trades unions.

CHURCH MEMBERSHIP CONTEST.

One-half of the membership of the Pilgrim Congregational church, Sixty-fourth street and Harvard avenue, will soon have a dinner at the expense of the other half. Yesterday the announcement was made by the pastor, the Rev. H. Samuel Frisch, that the Blues, led by A. R. Lowe, had triumphed in a membership attendance contest over the Reds led by W. F. Friedman.

STORM CHECKS BILLY'S TIRADE AGAINST SATAN

Preacher Does His Best
but Rain Seems on
Devil's Side.

BY THE REV. W. B. NORTON.

Like the boom of cannon, the flash of signal lights, and the rattle of machine guns, thunder, lightning, and rain proved too much for even the voice of Billy Sunday last night at the big wooden tabernacle at Chicago avenue and the lake.

Billy preached a sermon which was so filled with rollicking fun and dramatic episodes he kept his audience bursting with laughter or craning their necks to see whether he would fall off the back of the chair on which he perched himself or from the pulpit on which he climbed.

He was in the midst of an incident telling how a man who had been a booze holer for fourteen years had taken God and wanted to take as a memento enough sawdust from the sawdust trail to make for himself a pillow as a perpetual remembrance, when the noise of the falling rain cut him off in the middle of a sentence.

Can't Compete with Rain.

"It's no use, I can't beat that rain," he shouted as he held his hands on each side of his mouth in order to carry the sound as far as possible. He stopped and while the choir sang "Do Not Pass Me By" and the rain continued to fall in heavy dashes, the procession of trail hitters down the aisles began.

For the first time on Sunday since the campaign began there were some empty seats in the back of the tabernacle. The number of trail hitters showed in consequence some falling off, but notwithstanding the handicap, 774 persons came forward to take Billy by the hand and 599 signed cards, giving their names and addresses so they may be followed up. The collections totaled \$974.

While there was an ebullition of fun there was severe denunciation of sin and an earnest gospel appeal. His subject was "The Moral Leper" and the Bible incident used was the cleansing of Naaman.

Assaults Pro-Germans.

At the afternoon meeting he dealt stern blows at Socialists, whom he called pro-Germans, and those, which he said was at the base of most of the political corruption.

Because the Chicago election commissioners threw out the dry petition, Billy announced he was going today to Bloomington to help put over the dry vote there. He will speak in the Coliseum, leaving Chicago at 10:30 a. m. and returning by 8 p. m.

"I don't have a vote in Chicago," he said, "but if I didn't vote for any Socialist hewer, I don't believe there would be a pro-German in their hearts and anti-American in their spirit, who sit with a sneer on their lips with a secret desire to see Germany win, ought to hold any office under the Stars and Stripes."

For Universal Training.

Billy also declared himself heartily in favor of universal military training. His sentiments brought vigorous applause from his audience, made up entirely of men.

"If we had universal training," he said, "it would be a big factor in cleaning up the slums of our cities."

"The Devil's Boomerang" (AFTERNOON SERMON)

BILLY SUNDAY called into the social evil without gloves in his sermon of yesterday afternoon, delivered to men only. The title of his sermon was "The Devil's Boomerang, or Hot Cakes Right Off the Griddle."

"You die but once," declared Sunday, "and after death, judgment." Speaking along the same line, he demanded to know how many men would trade their wealth for a few hours more of life, or, facing death, regret the years of indulgence that shortened their lives.

"I don't believe that any girl that ever lived was ever impure without some brute of a man taking the initiative," asserted the evangelist, opening his heavy batteries on the big audience of men.

"If you could put an indicator on some fellow that would tell where they'd been and what they'd done, there wouldn't be a decent girl that would speak to them."

The Married Men.

"And there are some of you old married men that tip around, too! I tell you that about the lowest down, God-forsaken, good for nothing, iniquitous, black livered degenerate this side of hell is a man, sir, that stands at the marriage altar and promises 'love, cherishes, and obeys,' and then goes out and creeps into the arms of infamy and propagates his species of licentiousness, and then goes home and creeps into bed and pillows himself by the side of a good, loving, sweet."

FOR AMERICA

National Security League Starts
Anti-German Propaganda
Among Foreign Born Citizens.

NEW YORK, March 31.—Aroused by the persistence of various disturbing agencies among the foreign born population of the country suspected of spreading German propaganda, a country-wide movement in furtherance of Americanization work has been inaugurated by the National Security League.

The direct purpose of the movement, according to the announcement, is to give the foreign language speaking people of the country a clear exposition of America's aims in the war and educate the various races throughout the nation in American ideals.

The work will be in charge of a committee composed of Col. Charles S. Lydecker, chairman of the board of trustees of the College of the City of New York; Mary Antin of the national Americanization committee, Dr. Philander P. Claxton, United States commissioner of education; Dr. John H. Finley, president of the University of the State of New York, and Jacob H. Schiff.

Instructions and suggestions in promotion of Americanization work, embodied in a pamphlet entitled "What Can You Do for America?" have been sent to each of the 281 branches of the National Security League, it was announced.

Our young men would learn to be obedient and have respect for law. They would learn how to care for their bodies, and thus benefit the health. It would be a great benefit to the morals as well as to the physical life of the country.

In referring to more favorable news from the front in France, he said: "Remember what I told you. 'The Germans will not break the allies' line. We don't want any peace until that gang is on their knees. I wouldn't want to live if Germany should win and be allowed to dictate terms of peace.'"

Preaches to Jackies.

In the morning Billy preached at the Great Lakes Naval station, and in preaching at the tabernacle he warmly commended the men he had seen there. He said 50,000 men had already been sent into sea service from Great Lakes.

pure wife who has maintained her virgin purity for the man she swore to cherish.

"And if you can reform and become a kindly husband, then a harlot can reform and become a queenly wife—just the same!"

Two Kinds of Infamy.

"There is many a young man today who will do one of two things. He will go down to a house of ill fame and buy the body of a woman that has become public property, subject himself to disease, and bring it upon his unborn children."

"Or he will go to some girl about whose virtue and purity there is no question, and he will weave from the flowers of purity a crown of wondrous beauty, and he will place it upon her head, and then he will demand further evidence of her love for him other than mere words and vows, and when she gives her virtue as the supreme test of her love, sir, then he will go to men as low down and as rotten and vile as he is, and he will laugh over the triumph of impurity over purity."

"Who does he marry?" cried Sunday. "Your sister, your daughter—yes. Does he marry the girl he has been consorting with? No. He chooses your daughter, your sister, one that has kept herself pure for the man of his choice, and he asks her to take his whisky soaked, beer soaked, champagne soaked, syphilitic, gonorrheic old carcass in exchange for her virginity! That's what he does!"

WAR WILL KEEP GUNSAULUS IN CENTRAL CHURCH

A surprise was sprung yesterday morning at the Easter service in Central church, which meets in the Auditorium theater, by the Rev. Frank W. Gunsaulus, the pastor, when he announced at the close of his sermon he would withdraw his resignation and would remain until the war is over.

It was a surprise to most of the congregation to know he had ever tendered his resignation and a surprise to the few officials who knew he had requested to be relieved of his duties as pastor to have him speak as he did.

His resignation, it was learned afterward from trustees, had been presented a year ago to take effect at this Easter. Not even the trustees most in his confidence knew he intended to make the announcement he made yesterday, although, as one of them said, they hoped for a favorable decision.

The Easter offering was \$7,000, the largest thus far in the history of Central church.

Jackies of the Great Lakes station listened to a "double bill" yesterday, Billy Sunday and Harry Lauder dividing the day with encouragement and advice. Mr. Sunday spoke in the morning and the Scotch comedian in the afternoon.

German propaganda in this country must be stopped, said Mr. Lauder, "and the quickest way to stop it is to immediately abolish the teaching of German in the public schools and the publication of German newspapers. Both are breeders of sedition and anti-American propaganda."

German Atrocities.

"Don't believe the things you hear in denial of German atrocities. It has been said that half the things said against the Germans are not true; but I tell you that half the things they do are not printable."

He related some incidents of German atrocities and closed with a compliment to the young men for their appearance of seeming to "be seething against the Hun."

Sunday Voices Praise.

Mr. Sunday said he would instantly write a letter to Secretary Daniels praising the appearance and eagerness of the Jackies.

"When you get over there," he said, "don't forget the folks back home. Come back as clean and sober as you go away."

He exhorted the "human vampires, both male and female," who are preying on the young soldiers and sailors, and declared that an oath is an insult to the flag because the basis of all patriotism is God.

GOES OVER TOP HAT AT BATTLE OF BOUL MICH

Private McDonald
Gives Patriotic Lesson
as Lauder Approves.

Private McDonald, veteran of many a bloody dispute with Fritz on the battle fields of Flanders, went over the top in Chicago yesterday for the glory of the allies' cause, for the education of Harry Lauder, and for the education of a sleek and slack Chicagoan.

Harry Lauder, bent on recruiting fighters for his majesty's overseas army, while manufacturing laughs for Chicago, arrived in the city shortly before noon, to be met at the train by a contingent of Canadian veterans, now in Chicago on a recruiting mission and by a squad of sailors from Great Lakes.

Form Guard of Honor.

Private MacDonald—he who usually stands just inside the door at the British-Canadian recruiting office at 54 West Adams street—was one of the veterans who formed the guard of honor which escorted the famous Scotch humorist from the train to the Blackstone hotel.

On the curb near the hotel stood a Michigan avenue promenade. He was all dressed up for Easter—nice shiny silk hat, cutaway coat, face freshly shaven and powdered, and a neat little cane tapping with studied indifference a pair of impeccable spats.

He was plainly bored that a procession of men in uniform should interfere with his brilliant and triumphant progress down Michigan avenue. Funny how some people will be attracted by a uniform nowadays, isn't it?

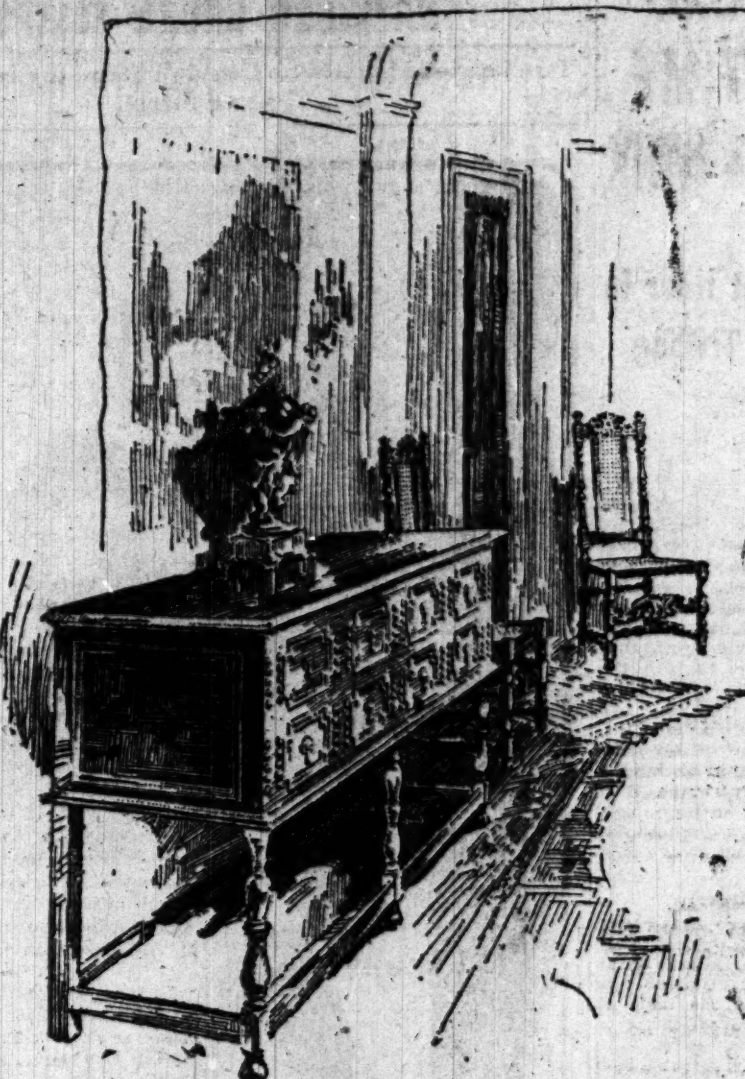

Came the emblem of the United States and of Great Britain—also Private MacDonald. The silk hatted one yawned and an impatient cane tapped the curb.

Asked to Doff Hat.

"Why don't you take off your hat to your flag?" queried Private MacDonald in his most polite tone.

"And he said," related Private MacDonald, when the dust of Michigan avenue had settled, "To hell with your bloody flag! I'll do something like that. And then I gave him a shove to teach him manners." That is MacDonald's account. Here is that of an enthusiastic Jackie:

"Say, that Canadian jumped out of line and hung on to that dude that was a peach. Off went the topper, and the guy ducked. He bumped his head into an uppercut, and then I lost track. But you can bet he's carrying a shiner tonight." The "enemy" retreated in great disorder in the general direction of the loop.

DON'T HATE ANY NATION, MAYOR WARNS CHILDREN

'Pure Americanism' Must Be Taught in Schools, He Says.

Mayor Thompson, Edwin S. Davis, president of the board of education, and officials of the street railway labor unions officiated at the laying of the corner stone of the Resin Orr school, Keeler avenue and Thomas street, yesterday afternoon. The school house, which will be erected immediately, is said to be the first school in the country named after a labor leader.

R. L. Reeves, member of the general executive board and editor of the Motorman and Conductor, Detroit, Mich., laid the corner stone. The building, a modern thirty-two room structure designed by A. F. Husander, will occupy the corner at Keeler avenue and Thomas street.

Davis Acts as Chairman. Mr. Davis, as chairman, opened the exercises. Addresses telling of the work of Resin Orr, street car men's union leader, and of the educational work, were made by Mayor Thompson and officials of street railway labor unions.

The exercises, which were arranged by George B. Arnold, member of the Executive board, Division 308, Amalgamated Association of Street and Electric Railway Employees of America, and member of the board of education, and other railway union officials, were attended by Superintendent of Schools Shop, members of the board of education, and hundreds of pupils of neighboring schools and their parents.

Mustn't Teach Hate. The mayor stated that he believed that the schools should teach pure Americanism. Then he added:

"I would not have them teach hate or dislike of any other nation, nor any other people. Rather would I have them inculcate in students a spirit of respect for all government, especially that founded upon the consent of the governed, and an attitude of brotherhood toward all people, with single allegiance to our own nation, the United States of America, to whose principles, as exemplified in our national and state constitutions the people of the world must finally turn for protection, justice, freedom and mercy."

Somebody Is Always Taking Joy Out of Life. Billy Sunday, cocktail addicts are advised in the current issue of the health department bulletin that the bubbling or hygienic jet d'eau is not as prophylactic as was once surmised.

"Many of the so-called bubbling drinking fountains are unclean, dangerous, and a source through which various forms of communicable diseases are transmitted," the bulletin reads, and drinkers are warned to "be wary."

Morbidity and mortality statistics for the week ending Saturday are 1,464 cases of illness, 244 deaths. There were 153 deaths from pneumonia out of a total of 400 cases.

"PROF'S" EYE FOR BEAUTY KEEN

Joseph L. Withers Also Took Such Interest in Physique That Woman Movie Aspirant Called Police.

MRS. ESTHER LINDEGREN.
MISS LILLIAN FLYBORG.

"Of course, I knew I wasn't any Mary Pickford, or even a first class understudy, and when he promised to make me the movie queen of the world there seemed to be something wrong."

This explanation was made yesterday by Mrs. Esther Lindgren, 214 West Locust street, whose investigations caused the arrest of Joseph L. Withers of 418 East Forty-first street Saturday night on a charge of taking too keen an interest in the physical qualifications of the young women who were ambitious to become students in his school of photo play acting.

Mrs. Lindgren told how she had answered a blind classified advertisement in an afternoon newspaper, which promised super-salaries to women of types suitable for motion picture work. She answered in person at Withers' office at 180 West Washington street, which he rented for 25 cents an hour.

"Professor" Withers was enchanted with Mrs. Lindgren's peculiar beauty. "You are wonderful," he declared, brushing back a sleek blonde pompadour.

"Then he said it would be necessary to measure me for my costume," Mrs. Lindgren continued. "I left my friend, Miss Lillian Flyborg, who was with me and also wanted to become a picture actress, in an outer office."

"I have been on the stage in Sweden and I know that Mr. Withers' professed anxiety that my costume should fit was not warranted, so I took Miss Flyborg with me and complained to the police."

"It is a conspiracy to ruin me," Withers protested in a cell at the detective bureau. "I offered a course of instruction for a few dollars for which other schools charge hundreds. They want to put me out of business."

WAR INSPIRING NEW LIFE, BISHOP TELLS AUDIENCE

Draws Lesson from Sunday Evening Club Throng.

Out of the world war will come the greatest spiritual regeneration of mankind ever witnessed.

This, briefly, was the Easter message brought to the Sunday Evening club

in Orchestra hall last night by Bishop Thomas Nicholson of the Methodist Episcopal church, Chicago.

"At first, in viewing the battlefields and the horrible slaughter, we see only their grevances, but looking farther we are conscious that from the vast conflict will emerge a larger life for the race, a life of greater significance," said Bishop Nicholson.

Benefits Already Seen.

"Already we can see the growing tone of seriousness in the life of all our people. Daily there are being released spiritual qualities which must redound to the good of the world. We are advancing in our thoughts and our acts from the small and petty to a broader vision and nobler deeds. We are passing through the world's greatest spiritual revolution."

"Not long ago a newspaper writer asked, 'What has become of the butterfly girl?' The truth is the butterfly girl has gone out of fashion. Today she is darning socks or knitting sweaters for the soldiers."

No Mercenaries in Army.

"When we compare the average young man of Chicago who goes forth

to fight the Huns with the Hunstian mercenaries who opposed our revolutionists we are impressed with the fact that representatives of autocracy, the soldiers of the Kaiser, will not be able to stand up against them."

This war is giving us all a new vision of the significance of death and suffering. What cleansing and strengthening power have come through suffering."

Boy with New Easter Suit Is Gas Victim

John Donald Osborne Jr., 17 years old, was found dead in a gas filled bathroom of his home, 411 Fremont street, yesterday morning.

The Englewood police believe the burning gas of a water heater consumed all the oxygen in the room, extinguishing the gas flames.

Osborne worked in the offices of the Pennsylvania railroad. He had bought a new suit and other apparel for Easter and was preparing to don it. There is nothing to indicate suicidal intent.

OPEN FIGHT ON TRADE 'CROOKS'

New York, March 31.—A vigorous campaign against "crooked" business men, who are said to have reaped fortunes through illegal trade practices, will be launched tomorrow by the investigation and credit department of the National Association of Credit Men, according to an announcement today by F. Brown Snyder, chairman of the committee.

Credit associations throughout the United States have been asked, according to Mr. Snyder, to participate in the work of conveying to the 100,000 credit men in the country the information that the investigation and prosecution department is at their command in all cases where there appears to be evidence of commercial fraud. There will be no compromises, he stated.

"Because of the present high prices for merchandise," he declared, "crooked dealers find it particularly attractive to obtain on credit goods for which they never intend to settle."

LENROOT LOOKS LIKE WINNER IN WISCONSIN RACE

Size of Socialist Vote Is Only Worry of Republicans.

BY E. O. PHILLIPS.

Milwaukee, Wis., March 31.—[Special.]—Thank God for Marshall! This is the 1918 Wisconsin Republican election of a Democratic slogan that was heard somewhat in the presidential campaign of 1916. As the polls are about to open for the special senatorial election this sentence just about expresses the real inside sentiment of the Republican leaders.

The vice president's Madison speech, as the Wisconsin voting crisis arrives, unquestionably has won the election for Lenroot, if it is to be shown by Tuesday's returns that the Superior man has won. The Republicans have been solidified behind Lenroot, and the name now rests between Lenroot and Berger, the Socialist.

No Davies Betters.

The Democratic managers will not admit it in any sense of the word, but the Davies chance has not been a palatable quantity, so far as the betting goes, since Wednesday. That was the day after Mr. Marshall made the general charge of disloyalty against all Wisconsin citizens who cannot see their way clear to vote for Davies. The Republican managers would be absolutely confident, if they knew more about the eventual size of the Berger vote. Milwaukee is to be carried by Berger and the Socialist committee, to all present indications, and there might be enough Socialist landslide in the city to make Berger's election to the senatorship a distinct possibility.

Lenroot Shows Confidence.

Mr. Lenroot, who arrived in Milwaukee late this afternoon, made this statement: "I believe absolutely that the election now rests between Mr. Berger and myself. I feel that the campaign, as short and as sharp as it has been, has eliminated the chances of the Democratic nominee, Mr. Davies, to be elected."

Joseph E. Davies, the Democratic nominee, in a statement issued tonight, says that he will be elected and that Mr. Lenroot will be the third man in the three cornered race.

"I am quite convinced that Mr. Lenroot will run third, Mr. Berger second, and that Joe Davies will be elected," is the statement from Davies sent out by the Democratic state committee.

Berger Sees Victory.

Victor Berger, Socialist nominee, declared there is to be an overwhelming Socialist vote cast in Milwaukee that will reflect Mayor Hoan, the entire Socialist municipal ticket, and that will give him such a lead, with the upstate vote being closely divided between Lenroot and Davies, that he can win.

"Moreover," Mr. Berger said, "my vote out in the state is going to be remarkably large. I haven't a respectable chance to lose the election."

Secretary of the Navy Josephus Daniels tonight came to the aid of Mr. Davies with this telegram, which was given out by the Democratic state committee:

"It was with the greatest pleasure that I learned of your nomination for the United States senate. I congratulate the people of Wisconsin on having the opportunity to send you to Washington as the successor of Senator

WANTS MILLIONS

Faulty Birth Certificate Said to Stand Between Washington Woman and \$100,000,000 Estate.

Mrs. Robert L. Ogilvie

Washington, D. C., March 31.—[Special.]—The insistence of the health office on certain points in connection with the birth certificates of her twin boys, is standing between Lady Banff and an ancestral estate in Scotland which she says is worth \$100,000,000.

Lady Banff is known in Washington as Mrs. Immausale D. H. B. Ogilvie, widow of Robert W. F. Ogilvie, a lawyer.

Robert Ogilvie died last April, having been prevented for years from claiming his estates by another member of his family who, according to Lady Banff, recently has been killed in action.

The District of Columbia health office threatens to cancel the certificates because neither bears the name of any registered physician or midwife.

Lady Banff, who was born in Kentucky, and before her marriage in Washington fifteen years ago was Miss Immausale Harmon, declines to "be dictated to by any health officer." She says no physician was present at the birth of the twins because she does not approve of physicians.

Husting, whose splendid Americanism heartened all who are enlisted heart and soul in the winning of the war.

The Germania Sunday edition prints a three column portrait of Joseph E. Davies, and the following endorsement of President Wilson and the candidacy of Mr. Davies for senator.

"Let us give an expression of internal unity to the world! Let us express our faith and confidence in our president in this time of war! A vote for Joseph E. Davies for senator will do this!"

FATE OF GERMAN CONCERTS HERE TO BE FIXED SOON

Choral Society Officers to Decide on Sunday Program.

The question as to whether great public concerts shall be given in Chicago in the German language will be decided tonight. The executive officers of the Vereinigte Maennerchoere (United Male Chorus) of Chicago will meet at Wilkes' hall, 168 North La Salle street. They will then determine whether to abandon the concert scheduled for next Sunday at the Auditorium, whether to change it to a concert mainly orchestral, with a few vocal numbers in English interspersed, or whether to stick to the original program and give it in German.

The majority is said to favor either abandonment or a rearrangement of the program which will eliminate German choral numbers. But there is an obstinate minority, it is said, which insists upon sticking to the regular program.

Get Federal Opinions.

These, however, are said to be the hotheads. The men in charge had already visited the State Council of Defense and the government secret service authorities to ascertain their status, following the concert of the Singverein, given last Wednesday in German at Orchestra hall, which aroused a storm of protest among non-German local musicians. They were informed that there was no law against the giving of the concert in German, but were advised, as a matter of policy, not to do so.

"I of course see no objection to the use of German in music as a general rule," said one. "But I see a very forcible objection to the giving of this concert entirely under German auspices and in the German tongue. This would almost justify the conclusion that it is German propagandist work, and in my opinion the concert should either be abandoned or so changed that the German element is entirely eliminated."

Exempt from War Tax.

In the event that the concert is given, however, whether in German or not, the proceeds will be exempted from the war tax. This much was stated yesterday by Collector of Internal Revenue Julius F. Smetanka.

The concert, if given, is undoubtedly for a charitable purpose," said Mr. Smetanka, "according to the representations made to this department by August Lueders, who applied for exemption. The proceeds, we were informed, are to go to the German Althaus or Old People's home, and this being the case it is within the provisions for exemption under the law."

Regarding the recent concert of the Singverein Mr. Smetanka said there had been no return made yet.

GAS OVERCOMES FIVE; ONE DIES.

The STORE for MEN

CLOTHES

THOUSANDS of men have a secret philosophy about the character of clothes they wear.

They know that power is largely a matter of consciousness, and that a man must win his own approval before he can command the approval of others.

If, for any reason—negligence, a false sense of economy, or a lack of good judgment—a man clothes himself in garments that misrepresent his taste, or feeling, or knowledge of relative qualities, he knows that he loses some of the power by which men achieve success.

It is for men who appreciate this secret philosophy of good clothes that we build the garments we sell.

From the quality of the wools to the tensile strength of the thread used in sewing there is no detail that escapes our exhaustive scrutiny.

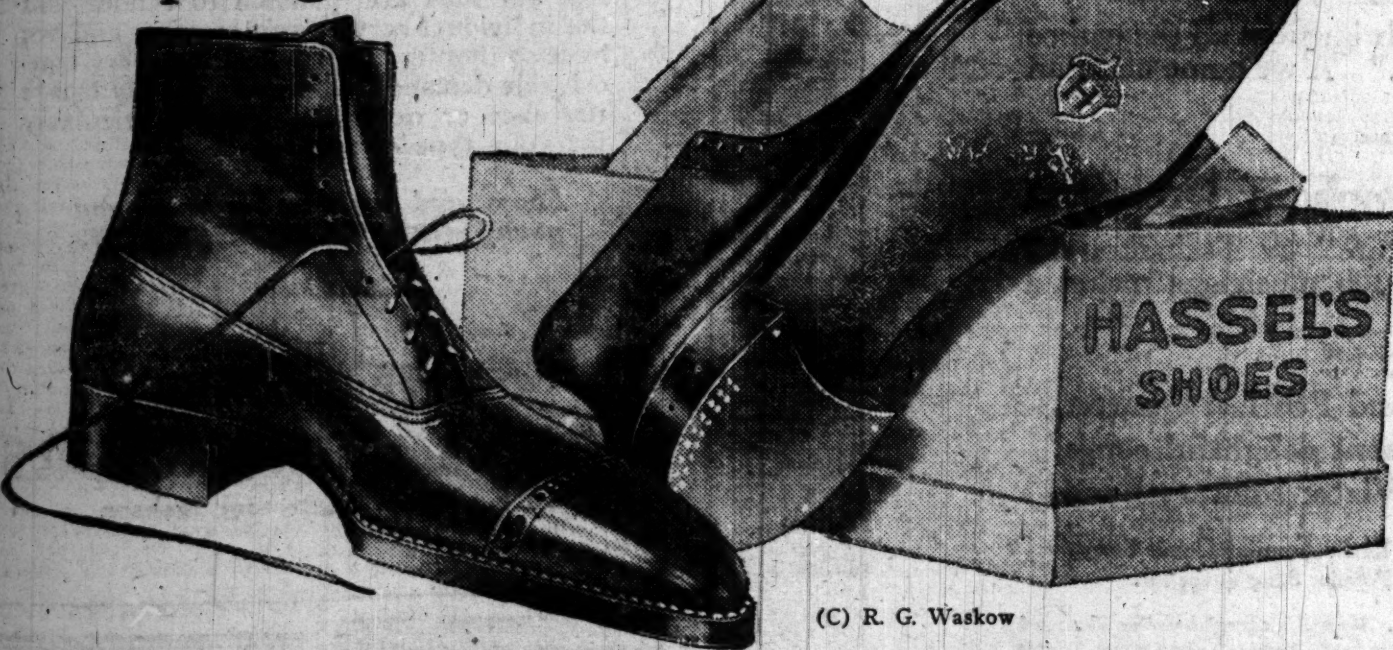

Our records show, for instance, the signed testimony of thirty-four experts on the best methods of shrinking woolsens.

Every imaginable improvement we have gained through years of cumulative effort is embodied in our specifications to manufacturers.

In providing for the clothing requirements of men of every age we specialize on each type or class, and carry it to the utmost degree of intelligent development.

HELP YOURSELF AND THE NATION WITH WAR RECIPE

"Tribune" Contest Offers
\$2,375 Prizes for Pa-
triotic Work.

Do you know a new wartime dish that saves wheat, meat, sugar, or fat? Enter the recipe for it in THE TRIBUNE'S Wartime Recipes Contest, and it is in at once. The earlier the better your chance to share in the \$2,375 offered in prizes.

This contest is open to every man, woman, and child. Housewives, students of domestic science, and school children are especially invited to send in recipes. It may be a breakfast dish, a luncheon delicacy, or a dinner meal, but it must save wheat or meat or sugar or fat, and it must be a wartime recipe. It will be judged by these qualified judges: Nutrition, economy, conservation, and palatability.

The contest, in addition to being a grand training one for you, gives you an opportunity to help the United States food administration by suggesting new wartime recipes.

Judges Selected.
Every recipe accepted will be tried, tested, and approved. The judges of the contest are Miss Jane Edgington, food expert of THE CHICAGO TRIBUNE; Harry A. Wheeler, food administrator for Illinois; Mrs. Joseph G. Coleman of the National Council of Defense. Altogether there is the sum of \$2,375 to be distributed, and even the lowest prize, \$10, is worth the effort to you, don't you agree? The total sum is split up in such a way that you will have 124 opportunities at a prize. They are divided as follows: First prize, \$500; second prize, \$300; third prize, \$200; fourth prize, \$100; fifth prize, \$50; and sixth prize, \$25, and 120 prizes of \$10 each.

Prizes will be awarded weekly for two weeks, beginning Sunday, May 5, ten recipes will be printed in the Rotogravure section of THE CHICAGO TRIBUNE. Prizes will be awarded until the 120 best recipes have been published. The 10 prizes will be paid immediately following the publication of each recipe.

Plan of Awards.
Then, after the 120 best original wartime recipes have been selected and published, the six capital prizes of from \$25 to \$500 will be awarded to the persons contributing the best six recipes of the 120 published. These will be awarded immediately after the end of the contest, Sunday, July 21.

The contest is open to everybody, and you may send in as many recipes as you wish. No one person will be paid more than one of the \$10 prizes, but you can earn one \$10 prize and one capital prize. You cannot win more than one \$10 prize, however. Prizes will be paid in Liberty bonds of United States government thrift stamps. No recipes will be returned. All recipes accepted and paid for shall become the property of THE CHICAGO TRIBUNE.

Write your recipe on one side of the paper. Write it plainly. Sign your name and address to the same piece of paper and mail it to "Wartime Recipes," THE CHICAGO TRIBUNE, Chicago, Ill. Send it early!

LIMIT IS PLACED ON AMOUNT OF HARD COAL SOLD

Use of Soft Forced on
Those Using Over
4 Tons.

America's consumption of anthracite coal and coke is to be regulated by Uncle Sam scientifically with a view to conserving the supply against the contingency of war needs next winter. Hereafter, regardless of how small a consumer you may be, you will have to fill out form X-7 when you order anthracite or coke from your dealer. Form X-7 is a questionnaire and will show (1) the kind of fuel used in your heating plant; (2) the amount of anthracite or coke you used for the year ending March 31, 1917; (3) amount of bituminous coal used for year ending March 31, 1918; (4) quantity now on hand; (5) quantity received since April 1, 1916.

Notification of the new regulations is contained in an order issued yesterday. "Anthracite coal will be delivered to the dealers in Cook county in proportion to the amount received by them during the year ending March 31, 1917, in so far as the available supplies will permit. It is thought that very little or no coke will be available to the domestic trade this year."

Dealers will be permitted to deliver anthracite coal only to former users of anthracite coal and coke, and so far as is practicable they are requested to confine their business to their former customers. Those who need only four tons or less of anthracite can buy all they need up to four tons. Those who use more than four tons can have only two-thirds of what they need. The other third will be made up with Illinois coal.

Dealers are specifically prohibited from delivering anthracite coal to former users of bituminous or smokeless coal in substitution therefor.

Under orders from Washington you are hereby instructed to reduce your prices of anthracite coal 30 cents per ton, effective April 1, 1918. The reduction in price remains in effect until Sept. 1, 1918.

LABOR TROUBLE AT KANSAS CITY STILL UNSETTLED

Kansas City, Mo., March 31.—Easter Sunday brought no disorders and no progress toward settlement of the general strike of union labor in Kansas City. Interest centered in a meeting of P. J. Kealy, president of the Kansas City Railway company, and W. D. Mahon, international president of the Amalgamated Association of Street Railway Employees, after it was announced late last night that laundry owners had refused to participate in a general conference.

Mr. Kealy, it was said, charged that the railway employees had broken their contract, adding that if the strikers will return the agreement will be considered restored except that union buttons shall not be worn conspicuously. Mr. Mahon is reported to have refused to ask the men to return on this basis.

Limited street car service was maintained today, cars being guarded by policemen, and national guardsmen patrolling the lines in motor cars. Theaters reopened under a two days suspension of the strike order, as it affected their employees.

FORTY CASES OF PNEUMONIA.
Forty cases of pneumonia were reported to the health department yesterday. Other contagious diseases reported were: Smallpox, 1; scarlet fever, 1; diphtheria, 5; and infantile paralysis, 1.

CABARET OWNERS MEET TO PLAN BATTLE FOR LIFE

Chicago cabaret men will meet again today and name a committee to call on Mayor Thompson. He will be asked to veto the new cabaret ordinance, effective May 1, on the ground that the government has not asked that the cabarets be closed.

Evidence purporting to prove this stand will be presented by the committee.

Steps also will be taken to combine the Chicago Café and Hotel Men's association with the restaurant men's organization. This will give the united associations a total working membership of fifty-nine, including the largest hotels and restaurants in the city.

GLENCOE PLANS WAR GARDENS.
Practical food production through the medium of "victory gardens" will be started by the War Emergency union of Glencoe today. Allan A. Murray, chairman of the garden committee, plans an intensive campaign to put into use all productive land in Glencoe.

\$5 War Savings Stamps Advance to \$4.15 Each

War savings stamps—the 35 variety—sell at \$4.15 today. The price went up 1 cent at midnight, and will continue to advance 1 cent the first of each month during the year. This does not mean, however, that the early buyers got any the better of the bargain. As each month goes by that shortens the time before maturity. On Jan. 1, 1923, every war savings stamp, no matter when it was purchased, will be worth \$5 in coin of the realm, and the rate of increase has been so figured that the person who purchases late in the year will get just as good interest as those who bought early.

Military Honors Mark Funeral of Private Czeska

Private Frank Czeska, ordnance department, Fort Dodge, Ia., was buried in St. Alphonsus cemetery, Lemont, yesterday afternoon. He died of pneumonia, while on duty at Fort Dodge, Ia., en route to the east from Fort Dodge. The funeral was marked by full military honors.

U. S. WILL START DRIVE AT ONCE ON TAX SLACKERS

The United States government will deal as harshly with financial slackers as with those who dodge military service. Plans are afoot to start immediately after all who have failed to make returns on their income tax, and the work of checking up and getting after the delinquents will proceed immediately after today, the last day to file schedules.

It is reported that several men from the internal revenue department in Washington will be here this week to aid the local force in checking up and getting after the "slackers" without delay. The internal revenue collector's office here anticipates a great rush today of those who have deferred the filing of their schedules until the last moment.

The United States District Attorney Charles F. Clyne has just returned from Washington.

Chairman Hays Goes West to Boost Liberty Loan

Indianapolis, Ind., March 31.—Will H. Hays, chairman of the Republican national committee, will leave here Tuesday night for a western trip in the interests of the third Liberty loan. In addition to addressing Liberty loan gatherings, Chairman Hays announced he would meet members of the Republican national committee and state leaders upon whom he will also urge the necessity of getting behind the Liberty loan campaign.

Women Will Get Medals for the Saving of Food

New York, March 31.—One thousand medals for housewives saving the most food from March 15 to June 15 will be awarded by the mayor's committee of women on national defense, according to an announcement made today by the committee in launching a more intensive food conservation campaign in this city.

MARINES ADEPT IN FAST DONNING OF GAS MASKS

Quantico, Va., March 31.—The official time limit for adjusting gas masks is six seconds, but United States marines encamped here are attempting to set new records for speedy adjustment.

French and British instructors say the marines are showing wonderful speed in the handling of the gas masks—an almost incredible speed—one that is likely to break records in gas mask adjustment.

The gas mask has a series of complicated straps that makes it no small trick to adjust the headgear within six seconds' time, but entire companies of marines have already beaten that mark.

Sweethearts and Wives Sense News Despite Censor

BY CINDERELLA.

Such curious, vague, exciting fragments of news as we have from France. The censor seems to be a very old or young soul, as the case may be, and biots and stamps out names and places with neatness and dispatch.

But the censor forgets that mothers, wives, and sweethearts' eyes are the weakest eyes in the world, and that the mere shadow of a letter gives a new life to an officer's school, or a short story suggests perhaps a certain famous French aviator. I'd almost bet a liberty bond that there isn't a woman in Chicago who doesn't know where her fighting man is, after she has once read from him.

The censor is sometimes a suspicious soul, too. A newly married couple corresponding with the utmost vigor and exchanging long distance love making that evidently worried the censorious one extremely, for he wrote at the end of one delicious document: "Have a heart and remember the censor."

That brings me to the way our men go to pretty places in England and France and send home postcards with scenes of where they are staying, while their letters are biotted out in a rather silly way. By postal, Lieut. "Scully" Lawrence's friends know that he is now in England, and our men by the way, like their English equipments, which are laid in beautiful quaint places.

The most exciting news of all comes from Dick Danielson, who went abroad in October "to get into something." This isn't so easy once in Paris, but he landed in the Y. M. C. A. and there all sorts of things have happened to him. Richard Danielson is not the hardest of men to begin with, and never was an athlete, so one woman who had been going wild with him upon him. He's been so strapped and so down upon, and had many unpleasant things happen to him as if he were having all the fun of being a fighting man.

Dick Danielson and Chauncey B. McCormick are brothers-in-law, being married to Charles Deering's two lovely daughters. And Chauncey McCormick also went to Paris "to get into something." Being a good, all round man, the Red Cross made him, soon after his arrival, the president of a French orphan asylum.

This situation did not have quite enough pep in it to suit Chauncey McCormick, so he speedily became a member of the American Legion. He went and attended an officers' camp, and everybody concedes that a second lieutenant has a job with all the pep in the world in it, so Dick's own Chauncey McCormick is at the first line trenches, and is as spry as a young cat.

Edward Wood arrives and Lieut. McCormick is taken from the trenches to his aid. He was with Gen. Wood when he was strapped, but escaped and returned again to the trenches. From this time recently he has again been taken as a temporary liaison officer on account of his smart and perfect French—for some important things that are going on now.

Next Saturday in the Auditorium will be Harry Lauder, opening, if you please, our vast Liberty bond drive. He is a wonderful occasion. The last time Harry Lauder opened a night after a great speech a million dollars was subscribed on the spot. Many very pretty and smart women will be heard to take subscriptions and contribute with Charles W. Folger and the men's Liberty bond committee.

End of Lenten Season to Lead to Play Going

Lent being over, every one is going to indulge in play going tonight, at least so it seems when one looks at today's calendar and sees that the Players' Workshop, the Playshop, the Cordon, and the Allied Relief committee are all going to have productions tonight.

The Workshop bill will be particularly interesting, owing to the fact that Edgar Lee Masters' play, "Nanny Gordon," will be given, together with "The Knitters," by Marie L. Marsh, and "After," by Frederick Bruegger.

This is the first time that a play by Mr. Masters has ever been produced, although he has written and had printed a number of plays. Miss Katharine Cornell will play the title role, and others in the cast will be Mrs. Norman T. Hobson, Miss Claire Andree, Mrs. Walter S. Mallot, Carlin Crandall, Norman T. Hobson, and Jasper F. King. J. Blanding Sloan, Charles Larsen, and Frederick Bruegger are in charge of the production, which will be given for six consecutive nights at the Workshop, at Fifty-fourth street and Kenwood avenue.

Some of those who will entertain parties tonight are Mr. and Mrs. Arthur T. Alda, Mr. and Mrs. James L. Crandall, Mr. and Mrs. E. L. Billings, Prof. and Mrs. Lloyd Riggs, Miss Marie L. Marsh, Mr. and Mrs. Edgar Lee Masters, John Evans Cornell, and Mr. and Mrs. Llewellyn Jones.

The players in the Philistine theater will give for the second week four one acts. "The One on the End," "How Very Shocking," "Alfred," and "The Warrior's Husband."

The allied relief committee will present "Gringore" at the Girls' Latin school at 59 Scott street, for the benefit of the American fund for French wounded. Miss Sarah Hulse, Miss Annette Washburn, Miss Susan Given, Miss Dorothy Brentano, Miss Margery McInchey, and Miss Helen Louise Walker will take part.

The Arts club will have an exhibition of portrait and figure paintings by professional members this afternoon from 4 to 6 o'clock. One of the most interesting portraits will be one of Capt. William A. Moffett of the Great Lakes Naval station, painted by Mrs. Lucius Robique.

A talk on current events by Mrs. E. S. Adams and Miss Julie R. Adams will be given this morning at 10:30 o'clock at the residence of Mrs. John B. Polley, 1438 Astor street, and tomorrow morning at the residence of Mrs. Rollin A. Keyes of 1210 Forest avenue, Evanston. The special topics will be the election and the harvest of 1918.

Her singing was, until she was two-thirds way through her bill, careful, cautious, even apprehensive; and it was lovely. The circumstances were explained to both audiences—the one in front and the one on the stage. Half the gathering, perhaps, was hearing her for the first time; and all of it reacted as if she had never before sang so well. Galli-Curci's art, her intelligence, her handiwork, she sang this moving example of Grieg's gift with more beauty and feeling than any one else has yet put into it.

The set bill ended with the discreet and polite mad-scene in "Hamlet." This, after Donizetti's, offers no difficulties save its inherent stupidity to Galli-Curci; and she took from it all that she could. She had in her admirable aid at the piano in Homer Samuels, and the inerrant Mr. Berenauer, from the opera orchestra, to play the flute. She will be back May 5 for another recital.

Campanini is so far from out of hope in the matter of returning next season to the Lexington in New York City that he has asked for an option of the purchase of the theater. It is no longer the best, by three others, of the city's four opera-houses; but it is, in the present alignment of emotions, the only one he may hope to acquire.

One of the minor opera ventures has taken from the federal trade commission a formal license to use Wolff Perce opera of "The Secret of Suzanne" and "The Jewels of the Madonna." The point is that the copyrights are owned by a resident of Leipzig, Germany.

The Women's Coat Section has never offered better coats—finer in fabric or more interesting in style. The one sketched at the left is made of a very fine Poiret twill and has an exquisite silk lining which is continued over the collar, and lines the flaring cuffs. Rows of silk stitching trim collar, cuffs and skirt, and the side plaits are prettily graduated at the tops to form a novel trimming.

FIRE RISK MEN BOUSED BY TALK OF U.S. INSURANCE

Appeal of Grain Dealers to Capital for Aid Causes Feeling.

By C. M. CARTWRIGHT.

Fire insurance men are now engaged in listing up statistics as to the terminal grain elevators and the capacity, together with amount of fire insurance required, so that all demands can be met where owners of these houses keep them in insurable condition. There has been some complaint on the part of the big grain people that they could not secure sufficient fire insurance coverage.

Some of the grain dealers made an appeal to some of the government authorities at Washington to have the government take over grain insurance. This has aroused the fire insurance people, because they feel that they can meet all demands, so far as wheat is concerned in the terminals, the government purchases it as soon as the grain is accepted.

However, other grain, such as oats and corn, is stored in the terminals privately owned and fire insurance is carried on it. Owners of wheat of course want their product covered in the terminal until it is accepted and taken over by the government. The latter consideration, however, is not so important as sufficient coverage for oats, corn, and other grain.

Values Concentrated.

The greatly increased prices have resulted in large concentrated values in these elevators. With the retirement of the German and Austrian insurance companies the regular agency fire insurance companies in many respects have had to curtail their writing capacity, which has left a shortage in the insurance market.

Now, however, since the grain dealers have made a bid for government insurance, the fire insurance folks are listing up every elevator securing data as to its maximum capacity and full amount of insurance required. Every company will be asked to stretch a point so that there will be no shortage of insurance. By going about it in this subject in a systematic way, it is thought that all demands will be met.

Try to Form a Platform.

The Chicago Life Underwriters' association, at its last meeting, took action to place the members on record against certain undesirable practices in the business. During the last six months or so the association has been endeavoring to form a platform of ethics on which all can stand. There was a diversity of opinion among the members as to what should be done.

Finally an amendment to the constitution was voted containing four principal articles. The first provides that no member shall pay, or offer to pay, or allow any cash or other considerations to any person other than a duly accredited life insurance agent for procuring or assistance in procuring or for information that leads to the procurement of any policyholder. This would prohibit the payment of commissions to men not regularly engaged in the business.

Must Be Licensed.

It means, therefore, that any one who assists in the procurement of a life insurance policy must be licensed and hold himself out to be a life insurance agent. The second provision prohibits any member from distributing misleading or deceptive literature, dividend estimates, or misrepresenting in any way the terms or benefits of any policy. The third section prohibits rebating, directly or indirectly, to any member or to any person other than a duly accredited life insurance agent for procuring or assistance in procuring or for information that leads to the procurement of any policyholder. This would prohibit the payment of commissions to men not regularly engaged in the business.

Every one of them a distinct achievement in Millinery art. The Straws represent quality; the trimming details expert application; the shapes a style supremacy which adopts the best from foreign originations and adds many new ideas of our own.

Included are winged Tailored Models—and many with effective burnt goose or ostrich novelties accompanied by a clever touch of velvet.

The Dress Hats assort their flowers around a wide brim or display them in clustered highness on the crown. Colored facings grace some of the Mushrooms Shapes, while Transparent Creations add their daintiness with veiled flowers or fruit. Here is a hat that will please, for every Woman and Miss.
